

# CR-WIFI G10S

10.1 inch wireless programmable color touch panel

CR-WIFI G10S

## Product overview

CR-WIFI G10S picture-in-picture touch panel is a programmable desktop/handheld wireless full-color touch panel with built-in WiFi wireless control mode, a 10.1-inch capacitive touch screen with 1920\*1200 resolution, and a transparent high-grade plexiglass frame to create a dazzling appearance, while providing a sensitive touch experience.

It is suitable for various large and medium-sized command and control centers, multimedia conference halls, multimedia classrooms, high-end villas, hotels, smart classrooms and other places.

## Features

- 10.1-inch screen, supporting 1920\*1200 resolution.
- All-aluminum base is integrally formed at one time and equipped with high-grade plexiglass shell.
- The operation interface can be customized by users, and the graphical interface supports text, 3D buttons, etc.
- Support picture-in-picture and two-way communication.
- It supports TYPE-C charging/power supply, and the battery life can be up to 8 hours.
- Support desktop/handheld use.

## Specifications

The parameter name	CR-WIFI G10S
Screen type	Capacitive a-Si TFT
Screen size	10.1"
Screen resolution	1920*1200
Contrast ratio	1000:1
Backlight	Embedded LED with automatic brightness control
Viewing angle	Horizontal ±80°, Vertical ±80°
CPU	Rk3399
RAM	2G
ROM	16G
Touch	Projective capacitive, 5-point multi-touch function
Brightness/color depth	400lm/24bit 16.7 million color
Indicator	Button with light
Lithium cell	Lithium rechargeable battery 3.7V/5000mAh
Battery life	>8 hours
Power interface	TYPE-C power supply/charging interface
Weight	550g
